Re: PCB Soil Removal Action at Camp Allen Salvage Yard,
Naval Base, Norfolk

SITE 22

Dear Mr. Harris:

The draft "Work Plan, PCB Soil Removal Action, Camp Allen Salvage Yard, Norfolk, Virginia", dated May 1998 has been forwarded to you under separate cover. The work includes removal and disposal of PCB contaminated soils over an area of approximately 3 acres. The initial field work, covered under Section 3.1 "Pre-Mobilization Sampling and Analysis", will include soil sampling and analysis for disposal characteristics. This will allow us to determine appropriate methods for staging and disposing of the material prior to mobilizing for the excavation work.

Request that you review and provide comments on Section 3.1 by June 1, 1998. Comments on the remainder of the document are requested by June 24, 1998.

If you require additional information, please contact me at (757) 322-4587.

Sincerely,

R. M. JACKSON, P.E.
